

REFLECTION.md:

WHAT I LEARNED TODAY:

1. GEMINI API:

I learned How to connect Gemini API with Python using API Keys and .env Files.

2. PROMPT ENGINEERING:

Small changes in Prompt can significantly affect output.

3. AI - ASSISTED DEVELOPMENT:

I learned How to use AI coding assistants inside vs code to generate scripts and improve code.

WHAT SURPRISED ME:

1. Gemini Followed Formatting Instructions very accurately.

2. Step - By - Step Prompts greatly

Increase Response length.

CHALLENGES FACED:

1. API Quota Limits.

2. Rate Limit Issues.
